4. GROUP INCENTIVE BONUS

This is one great way of earning that ensure you earn from all your sides. It is this simple, work with your team and help everyone make money. Then, the company gives you a percentage of what your team earns from Level 1 to level 10

Example:

Assuming that you Introduced 5 people and each of them is making R5400 binary income in a month, the company would in this case pay you;
 $5\% \times R5\ 400 \times 5\ \text{members} = R1350.$

And that's just from your level 1 (People you personally Introduced)

You can do the maths for your income for level 2 to 10.

Note: This bonus will be locked for any particular month and it will only be released the following month provided you have done your repurchase eg the group incentive bonus for May will only be released in June if you have done your repurchase for May.

5. ROLL UP BONUS

This bonus is only applicable for Gold members. Every time a non-Gold member signs up a new person into the business, an extra bonus is rolled up to the Gold member above that person. The amount rolled up to the Gold member is the difference between the sponsor bonuses for a Gold member and the sponsor bonuses for other packages.

For example if a starter member signs up a Gold member, the starter will be paid R5400 and the Gold member above will be paid the R900 difference(R6300- R5400) as roll up bonus. That's the other advantage of being a Gold Member.
